house at Central Park, famous as a trainer and the idol of the children who frequent the Zoo, was among today's victims. One of the keepers complained of the heat and Cook volunteered to help them. He overexerted himself, was stricken and died.

Early in the day, the hot wave invaded the Stock Exchange, and its effect was quickly apparent on the traders. Many of the leading operators deserted the floor, and the market became listless and dull.

To add to the unavoidable physical suffering, Brooklyn was threatened with a water famine, while the whole city was startled by the prospect of a strike of the icemen. The water supply in Brooklyn was reported as nearing the danger point, and the water department took immediate precautions, asking that street sprinkling be temporarily suspended, and warning householders to be more economical in the use of water. Manhattan, it was said, had no cause for alarm, as far as the water supply was concerned.

Prompt measures were taken today by the police and park commissioners to alleviate in some degree the suffering of the public. Orders were issued keeping open throughout the night the park gates and permitting those who wanted to spend the night in these places to do so.

"Keep off the grass" signs were by permission disregarded, and tonight thousands of others, too exhausted to sated crowded tenements and apartments for a bed on the cool grass. Thousands of others, too exhausted to reach the recreation grounds, slept on the pavements in front of their homes.

**STRIKE AVERTED.**  
(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, July 19.—The threatened strike of ice handlers has been averted. The men agreed to work today after an arrangement had been made for a conference with President Ober of the American Ice Company.

The heat prostrations reach 190.

**AT NATIONAL CAPITAL.**

SIX PROSTRATIONS YESTERDAY.

(BY THE ASSOCIATED PRESS-P.M.)

WASHINGTON, July 18.—There will be no material relief from the present high temperature throughout the country for three or four days, according to the Weather Bureau tonight. Probably light showers in the West Gulf States and in the mountain regions of North Carolina, Georgia and Virginia, however, may serve to slightly reduce the temperature in those regions. The highest temperatures, today, continued in Eastern Pennsylvania, Eastern New York and New Jersey, where the maximum of 98 degs. was recorded.

There were six prostrations from the heat here today, but none of the cases proved fatal. The official thermometer here registered 98 degs., or 2 degrees higher than yesterday, and marked the warmest day of the year.

**CHICAGO STILL SUFFERS.**

RELIEF IS SHORT-LIVED.

(BY THE ASSOCIATED PRESS-P.M.)

CHICAGO, July 18.—After thirty-one persons had been prostrated and ten of them had died during the hottest day up to this summer, a breath of cool air relieved Chicago last night. The relief was short-lived. After a few hours the wind veered again, and the heat was intense throughout the early morning hours. Cooler weather is declared to be in store for the latter part of the week.

The maximum temperature of yesterday, 94, equaled the record of last summer, which, by odd coincidence, was made the same day, July 17.

No relief from the hot wave was experienced today, the temperature just equalling the high figures of yesterday. The railroad water supply decreased. Railroads are unable to get ice into Chicago fast enough to supply delivery companies. As a result, suffering has been increased, especially in the congested districts.

**PHILADELPHIA'S "WAVE."**

HEAT MOST OPPRESSIVE.

(BY THE ASSOCIATED PRESS-P.M.)

PHILADELPHIA, July 18.—Today's hot wave promised to be a record-breaker for this summer. At 8 o'clock this morning the government thermometer registered 98 degs., nine higher than at the same hour yesterday. The suffering among the poorer people is intense. Last night hundreds of persons slept on the roofs of their homes. There is little hope of an immediate break in the hot spell.

As the day progressed the heat became more oppressive. One death has occurred, and there had been about a score of prostrations up to 1 o'clock. At that hour the government thermometer registered 98 degs., two degrees above yesterday's record.

At 3 o'clock, the official thermometer had reached 98 degs. There was one death and several prostrations during the afternoon.

**NEW HOLD ON BOSTON.**

HEAT ENERGY GROWS APACE.

(BY THE ASSOCIATED PRESS-P.M.)

BOSTON, July 18.—The heat, which acquired new energy late yesterday, continued today, with promise of nearing the record mark for the summer. During the night, the mercury did not go below 70, and it began to rise with the dawn. By 10 o'clock it stood at 81. The temperature in various parts of the city, however, was above 90 degs., at the same hour. The humidity today was below the normal, and there was a light breeze.

Between 11 and 12 o'clock there was a sudden jump of the mercury to 92. This was followed by a fall of one degree shortly afterward.

Reports received here indicate that the southern part of New England was in the midst of the hot wave.

**BALTIMORE'S WARMEST.**

PROSTRATIONS AND ONE DEATH.

(BY THE ASSOCIATED PRESS-P.M.)

BALTIMORE, July 18.—Today is the warmest of the present summer so far, the thermometer having reached 93 deg. at 10 a.m. with the humidity at 51. There has been one death from the heat in this city and a few prostrations. At 3 o'clock the thermometer marked 98 in the shade, but was much higher in exposed places. To date there have been one death and six prostrations.

**CLEVELAND'S HEAT EXTREME.**

ONE DEATH, FOUR PROSTRATIONS.

(BY THE ASSOCIATED PRESS-P.M.)

CLEVELAND (O.) July 18.—Extreme hot weather continues. In this city,

during the past twelve hours, there were four prostrations and one death from the heat. At 11 a.m. the mercury had reached 92 and the local Weather Bureau forecasts a maximum for the day of perhaps 93 deg.

**IN LOWER MICHIGAN.**

PEOPLE ARE SWELTERING.

(BY THE ASSOCIATED PRESS-P.M.)

DETROIT, July 18.—Detroit and Lower Michigan are sweltering again today. At 10 o'clock the Weather Bureau reported 97 deg. A breeze somewhat tempered the heat today. One prostration was reported.

**AT OTHER PLACES.**

OPPRESSION ON PITTSBURGH.

(BY THE ASSOCIATED PRESS-P.M.)

PITTSBURGH (Pa.) July 18.—Oppressive heat continues in Pittsburgh and vicinity. Before noon today the mercury had reached 94, and the forecaster predicted that all records would be broken.

**LINCOLN (NEB.) DEATH.**

(BY THE ASSOCIATED PRESS-P.M.)

LINCOLN (Neb.) July 18.—Mrs. J. B. Pickrel died today as a result of the heat. She was at the railway station ready to start for a summer resort.

**MADISON RECORDS BROKEN.**

(BY THE ASSOCIATED PRESS-P.M.)

MADISON, July 18.—All records for a continuous heat was been broken here. During the past three days the mercury has risen above 96 deg. daily.

**THROUGHOUT NEBRASKA.**

(BY THE ASSOCIATED PRESS-P.M.)

OMAHA (Neb.) July 18.—Extreme heat continued over Nebraska, today with an increasing humidity. There was a steady rise in the temperature during the day, the maximum being reached late in the afternoon. Although there was much suffering from the heat, no prostrations were reported.

**AT DIRECT WIRE TO THE TIMES.**

CAMBRIDGE (Mass.) July 18.—[Exclusive Dispatch.] In Harvard Observatory, today, it was said the sun spots at present are among the largest which have appeared in recent years. They are close together, somewhat above the center, and on the right hand side. They are estimated to be 100,000 miles in diameter, and near sunset can be seen with the naked eye.

**LARGE SUN SPOTS.**

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 18.—Former Supreme Court Judge Warren B. Hooker, a voluntary witness today at the trial before the Joint Legislature on charges growing out of the postal investigation.

Justice Hooker, whose career in Congress ceased in 1898, said that it was the custom in many districts for Congressmen to have a post office patronage. He spoke feelingly of the number of requests that come to a Congressman. Many of his constituents, he said, regard him as an errand boy between them and the department.

In the charges against Justice Hooker, it is alleged that Frank P. Ball of Dunkirk was given a position in the Fredonia post office at the solicitation of Hooker, and that Ball never performed any service, and that his calls were simply "indiscriminate," notes given by Ball and endorsed by Justice Hooker's wife. The witness asserted that neither he nor his wife loaned a dollar directly to Ball. Mrs. Hooker went on her notes only as an accomodation.

The fact that Ball was not doing any work in the Fredonia post office, the witness averred, was never brought to his notice, and did he ever have any conversation with Ball or arrange that Ball was to do no work and was to apply for a salary toward the payment of the notes.

Of his nephew, Maurice Hooker, he said he never knew that young Hooker, who had a position as laborer in the Fredonia post office, was not actually doing the work.

"I will pay a dollar," said the witness, "for the money which Postmaster Taylor of Fredonia restored to the government for Ball's and Hooker's salaries."

**DYING SOCIAL FROTHINGS.**

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 18.—[Exclusive Dispatch.] What perhaps will prove to be a bitter fight for the \$25,000,000 estate left by William Ziegler, the baking-powder millionaire and patron of North Pole expeditions, was begun in the Supreme Court today by Mrs. E. Matilda Ziegler, the widow. Disatisfied with the provisions of his will, she alleges that he was of unsound mind when he made it. Her suit is directed against Justice William J. Gaynor of Brooklyn, one of the executors, and friends of hers today said she would carry the fight to a finish and not consent to a compromise.

For the purpose of expediting the suit, Justice Gieserich appointed John H. Lindsay guardian of William Ziegler, the adopted minor son of the testator, who is residuary legatee, and who, should the will stand, will be one of the richest boys in the world.

The fight of the widow, however, is not directed against him or his interests. She objects to the estate being kept in the hands of the executors indefinitely.

**POINTS OF THE CASE.**

(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, July 18.—The adopted son, William Ziegler, will be 14 years old next Friday. At the age of 40 the boy is to have complete control of the entire estate. The will is dated March 31 last.

Ziegler died of apoplexy on May 24 at his summer home on Great Island, Noroton, Ct. After leaving bequests to relatives, the will provides that Mrs. Ziegler shall have an annuity of \$50,000 a year during her life, and the Ziegler residence on Fifth avenue and the summer home at Noroton.

The will was admitted to probate July 6. Mrs. Ziegler's suit is directed against Justice Gaynor of Brooklyn, who, with William S. Champ and herself, is named as an executor of the will, and the adopted boy, Justice Gaynor and young William Ziegler have been served with the summons and complaint.

When the matter came up in the Supreme Court today before Justice Gieserich, John D. Lindsey of the firm of Nicol, Venable & Lindsey, was appointed guardian of the boy on the application of Charles H. Hyde of Brooklyn. Young William Ziegler is a son of George Washington Brandt of Davenport, Iowa, a half-brother of Ziegler. He was formally adopted by Mr. and Mrs. Ziegler in 1896, when 5 years old.

**THE PRESIDENT'S OUTING.**

GOES A-CAMPING WITH HIS SONS AND FRIENDS AND WILL TELL STORIES OF HIS HUNT.

(BY THE ASSOCIATED PRESS-P.M.)

OSTEYER BAY, July 18.—The President and his three sons, accompanied by a party of cousins and friends, left Sagamore Hill this afternoon on their annual camping-out expedition. Hampers of provisions were carried down to the four boats in waiting for the party on the President's bathing beach, and the President and his companions rowed toward a point on Lloyds Neck, which had been selected as a place of camping.

The President himself will be the camp director. Around a campfire the President intended to relate some of his own experiences to his companions.

In the party, besides the President will be Theodore, Jr., Kermit and Archie Roosevelt, sons of the President; Jack, Philip and George Roosevelt, sons of W. E. Roosevelt; two sons of Mrs. J. West Roosevelt; two sons of Mr. Landon, a neighbor of the President and a friend of Theodore, Jr., who is visiting him. The party is expected to return to Sagamore Hill tomorrow about 9 o'clock.

**BALTIMORE'S WARMEST.**

PROSTRATIONS AND ONE DEATH.

(BY THE ASSOCIATED PRESS-P.M.)

BALTIMORE, July 18.—Today is the warmest of the present summer so far, the thermometer having reached 93 deg. at 10 a.m. with the humidity at 51. CLEVELAND (O.) July 18.—Extreme hot weather continues. In this city,

ECLIPSE OF THE SUN.

CONVERTED CRUISER DIXIE SALES WITH AMERICAN ASTRONOMERS FOR ALGERIA.

ANOTHER TO SPAIN.

(BY DIRECT WIRE TO THE TIMES.)

GIBRALTAR, July 18.—[Exclusive Dispatch.] The United States converted cruiser Dixie sailed today for Roma, Algeria, with a party of American astronomers on board who are to make observations in North Africa of the total eclipse of the sun Aug. 30. The expedition is one of three sent out by the Lick Observatory. One is on its way to Labrador. Another will make its observation in Spain. The party on board the Dixie is headed by Prof. Hussey of Lick Observatory.

Besides the observation of the eclipse, the astronomers will try to find the intermercurial planet commonly called Vulcan, believed to exist but never seen. Prof. Campbell of Lick, assisted by Prof. Perrine, also of Lick, will be in charge of the expedition to Spain and Dr. H. N. Curtis in Labrador. Hussey will set up his instruments at Souakaria in Algeria. The Spanish expedition will make its headquarters in the northeast of Spain and the Labrador expedition near Courtright.

## WASHINGTON. COTTON CROP DISCLOSURES.

Statistician John Hyde is Al-lowed to Resign.

No Blame Attaches but His Strength Fails.

alleged Methods of Falsify-ing Reports Known.

(BY THE ASSOCIATED PRESS-A.M.)

**WASHINGTON.** July 18.—[Exclusive Dispatch.] It is learned on the best au-thority that Secretary of Agriculture Wilson will retire as soon as the cotton scandal is cleared up, which will be within the next three months. The Sec- retary is said to be in the position of Secretary Payne after the postal scandal was uncov- ered.

The same authority declares Secretary Shaw of the Treasury Department will retire about December 1, and be succeeded by Postmaster-General Cortel- you.

**WASHINGTON.** July 18.—The resignation of John Hyde, statistician and chief of the Bureau of Statistics of the Department of Agriculture, was handed to Secretary Wilson, today, and promptly accepted. Willitt N. Hayes, the Assistant Secretary of Agriculture, has been placed in charge of the bureau temporarily.

Secretary Wilson and other officials of the department stated that Hyde had not been implicated in any manner in the irregularities that resulted in the dismissal of Edwin Holmes, the associate statistician, whom secret service operatives charged with being guilty of giving to brokers advance figures of cotton crop statistics. In his letter to the Secretary, Hyde takes notice of the fact that he will be criticised for resigning under fire, and in defense says there has never been a man who he was not under fire. He declares that an organisation, meaning the cotton growers, is bent upon getting him out of the government service, and that his health will not permit him to continue so unequal a struggle.

There is considerable speculation as to the possible successor of Hyde, one name suggested is that of R. W. Snow of Chicago, statistician for well-known farm journals and once an assistant statistician under J. R. Dodge, chief of the bureau about twelve years ago. Dodge was in charge at the time of the present system of gathering crop statistics, and devised, Henry Hester, secretary of the New Orleans Cotton Exchange, in a conversation with Secretary Wilson, contended that the salary paid by the department is inadequate to get the right kind of men for the place.

### ALLEGED METHODS DETAILED.

(BY THE ASSOCIATED PRESS-A.M.)

**NEW YORK.** July 18.—A letter is now in the hands of Secretary of Agriculture Wilson, says the Herald, the contents of which have been sworn to, that relates in details, methods said to have been pursued in the alleged falsification of the government cotton report June 2. The communication purports to expose the entire inner working of the Bureau of Statistics, and is vouchsafed by the Herald as to the writer of the letter, but he is said to be one of the men whose connection with the affair is a matter of public knowledge, but whose identity is withheld for the present.

Richard Chetham and Harvie Jordan, respectively secretary and treasurer of the Southern Cotton Growers' Association, who with the active co-operation of several New York firms have conducted a private investigation here, are now in Washington where they expect to confer with Secretary Wilson over the contents of the letter. An outline of its contents has been given by H. H. Hart, district attorney for the District of Columbia, one of the officials empowered to take up the investigation, and it was this development that brought Beach to New York Monday to enter into con-sideration with the personnel of the Southern Cotton Growers' Association and take over the evidence they had discovered.

### FIGURES ON ACREAGE.

(BY THE ASSOCIATED PRESS-A.M.)

**CHARLOTTE (N. C.)** July 18.—President Miller of the American Cotton Manufacturers Association today wired to Secretary of Agriculture Wilson as follows:

"An extraordinary meeting of the Board of Governors of the American Cotton Manufacturers' Association is called to meet in this city on July 20, to consider the proposed new South-Cotton Growers' Association, and others to re-open and revise the figures on the acreage as promulgated by the June report of your department. The cotton manufacturers of the world, including in the report of your department, the cotton manufacturers have, con-fined in the report of your department, until such unclassified evidence is produced, will have a tendency to weaken this confidence. The manu-facturers of cotton desire only the true results and are opposed to any attempt to conceal of any character what-so-ever."

"The object of our proposed meeting is for the purpose of selecting a committee, not to exceed three, to Washington which will proceed to Washington to confer with you, in order that the same capacity as other interests in cotton are now being represented, and we would respectfully request that you grant such an audience as is craved before the date is set, and is determined by you, if such revision is contemplated by you. We also request that you name a date in the near future which will be agreeable to you to receive this committee."

### BRITISH TO GROW COTTON.

(BY THE ASSOCIATED PRESS-A.M.)

**WASHINGTON.** July 18.—An ap-parently well-organized movement started by the cotton manufacturers of Great Britain to encourage the growth of cotton in the British pos-sessions and countries other than the United States is reported to the Department of Commerce and Labor by Consul Hale of Birmingham, Eng-land. The movement, which originated in the British Cotton Growing Association, and was started to liberate the British cotton trade from the danger of American speculators.

### CLIMBED WHITE HOUSE FENCE

ECKLESTON WANTS TO PLACE  
IS THE ASSOCIATED PRESS-A.M.]

**WASHINGTON.** July 18.—John C. Eckleston, 38 years of age, of Philadelphia, was arrested shortly after midnight at the White House, where he was caught climbing over a high iron fence. He said he was anxious to see the President, and carried letters ad-dressed to the President, offering sug-gestions for government methods, and also letters from a United States Senator and a Representative from Pennsylvania, recommending him to a Consulship at Rosario, Argentina Re-public.

Eckleston was prostrated by the heat last Monday, and he will be examined as to his sanity today.

### WASHINGTON BRIEFS.

Elihu Root to Take Oath.

**WASHINGTON.** July 18.—Elihu Root arrived here tonight from New York and tomorrow will take the oath as Secretary of State. He will remain in the city only one day.

### DEFECTIVES AND CHILDREN.

#### PRINCIPAL TOPICS DISCUSSED AT CHARITIES CONFERENCE.

Experts Give Ideas of Best Means to Train or Reform Tendencies of Youth—Dr. Walter Lindley of Los Angeles Says State Should Foster Home and Home Spirit.

(BY THE ASSOCIATED PRESS-A.M.)

**PORTLAND (Ore.)** July 18.—At the general session today of the National Conference of Charities and Corrections, "Defectives" and "Children" were the principal topics discussed. As yesterday each paper or report was discussed from every standpoint, the topic being the active interest as to make the discussions general in character rather than confined to the few set speeches of the day.

The topic "Defectives" was in- introduced by Dr. H. C. Tomlinson, Peter M. Clark, chairman of the Committee on Defectives. He discussed at length the importance of investigating the physical conditions of defectives as a basis for their rational care and treatment. The discussion of this topic was led by C. C. Krauskopf of Maywood, Ill.

Dr. Hastings Hart of Chicago, super-intendent of the Illinois Children's Home and Aid Society, read a paper on "The Juvenile Reformatory of the Twentieth Century."

"A Place of Scientific Surroundings" was the subject of the address by George Vaux, Jr., director of the Philadel-phia House of Refu-e.

Mr. Vaux said: "We demand against the squalor and barrenness of child life in the congenital districts, and the public buildings and schools and institutions of beautiful architectural proportions? As a rule, no building costs less solely be-cause it is ugly. Beauty does not add to expense, but in referring to these ornaments, but to the essentials.

Prof. Montgomery is so distracted and shocked by the tragedy that at times he is irrational.

This is the seventh accident that has occurred in the aeroplane during the few months, but that in previous occurred were before the ascensions, which were postponed on account of the weather.

It is believed by those who are fa-miliar with the machine that a rope caught over one of the wings, making the aeroplane unmaneuverable, in the tangle, the wing doubtless was broken, and the aeronaut thus rendered helpless.

Prof. Bell of the college was the first to observe that something was wrong with the machine.

As Malone was falling, Prof. Bell, realizing that death must speedily follow, raised his hands in the air, and solemnly made the sign of absolution.

### MALONEY'S CAREER.

Maloney was not married, but he has a mother, who resides in the Mission, San Francisco, and numerous relatives also in that section of the city. For a long time he made balloon ascensions in Glen Park, San Francisco, but for a year or so past he has had charge of the school, and has been making several successful ascensions. He was formerly a member of the League of the Cross cadets. He made the ascension this morning on their account. He was highly enthusiastic when start-ing, saying that he would make the greatest flight ever attempted. He was known as "Prof. Lascelle" in his chosen profession. His daring was demonstrated when he made the first ascent in the Montgomery aeroplane, at Leopold, in the Santa Cruz Mountains, placing his confidence on the results of his experiments, and he was greatly im-pressed with the results, and watched with great care during a series of demonstrations by the inventor. He was satisfied that the aeroplane would keep its balance, and sustain the weight of the man, for it had been proven to him that the machine never turned over, but always sailed on its keel, and its sustaining power was in a definitely-ascertained ratio to the area of the wings. His home was in Santa Cruz, and he was about 30 years of age.

### SUIT WITH BALDWIN.

(BY THE ASSOCIATED PRESS-A.M.)

**SAN FRANCISCO.** July 18.—The dis-pute between Dr. Montgomery, in-ventor of the aeroplane, and Prof. Thomas Baldwin, patentee of the "California Arrow," is at an end, so far as court proceedings are concerned. Prof. Baldwin's attorney appeared before Police Judge Channiss yesterday and asked that the criminal libel proceed-ings instituted by his client against the Santa Clara College scientist be dismissed. There being no objection, Judge Channiss directed that the case be tried on the merits. The trial will reach 2500. Half the issue will be cast. Pollard will succeed E. J. Montgomery had been indicted.

### FAILURE AT PORTLAND.

(BY THE ASSOCIATED PRESS-A.M.)

**PORTLAND (Ore.)** July 18.—The sight of the airship "Angelus" floating over the city this afternoon cre-ated a great sensation. Manned by Lincoln Beach, the airship ascended from the Lewis & Clark Exposition grounds, and to an aeronauts was first made to control the ship. But, as soon as he was able to get the propeller which pulls the ship forward, was not working at full speed, and, borne by a light northerly wind, the "Angelus" sailed over the city in the direction of Oregon City.

Findings that he was unable to get full power from his motor, the aeronaut sought a convenient landing place. Gradually, the airship descended over Ross Island, in the Willamette, and as the ship approached land, Capt. Beach threw out a grappling line, bringing the airship to standstill. Later, the airship was towed up the river to a better landing place. Just what will be done to get the ship back to the Aerodrome at the Exposition grounds has not been determined.

G. L. Tomlinson, an aeronaut, of the Chicago Children's Home and Aid Society, "Scouting World," and Mrs. Florence Kelly, superintendent of the National Consumers' League, on "The Social Loss from Premature Child Labor," the subject of "Children" was generally discussed.

## DEEP DROP TO DEATH.

*Daring Daniel Malony Makes Last Ascension in Prof. Montgomery's Aeroplane—Machine Becomes Un-manageable and He is Killed.*

(BY THE ASSOCIATED PRESS-A.M.)

**SAN JOSE.** July 18.—With men fainting and men sobbing, brave and popular Daniel Maloney, who had made numerous public ascensions with Prof. Montgomery's famous aero-plane, fell 2000 feet to his death at Santa Clara this morning.

Prof. Montgomery had announced an ascension this morning from the grounds of Santa Clara College in honor of the League of the Cross cadets, who are holding their annual encampment in that town. The announcement attracted probably 2000 people, who shortly after 10 o'clock watched with absorbing interest the airy machine as it shot up from the college garden, attached to a huge balloon, and with Maloney firmly seated in his usual position.

At the height of 4000 feet, Maloney lost loose and began maneuvering the aeroplane. He circled gracefully about for some minutes, having the machine apparently under perfect control. Then he essayed a deep dip. Suddenly, the machine went over, and the man and machine tumbled straight downward, and then turned completely over.

It righted itself, sank a considerable distance, and turned over again. Maloney was clinging desperately to his seat, and evidently endeavoring to gain his control. But all his efforts were vain. Again the aeroplane turned in the air, and this time together with the man and machine and the horrified spectators, gazed helplessly upward.

### SHRIEKS AND GROANS.

For a distance of probably a thousand feet the aeronaut fell, still clinging to the machine. Both alighted in the rear of the tattered machine.

Amid shrieks and groans, many of the spectators rushed to the scene, while the others stood by and watched. A number of cadets first reached the unconscious man, and, picking him up, they conveyed him to the college hospital. His head was fractured and blood was flowing from his ears and mouth, and he expired almost at once.

The aeroplane, which was constructed of the toughest oak procurable, was ground into small fragments.

The physicians say that Maloney was practically dead when picked up; his pulse was fluttering, but barely perceptible, and there was no further sign of life.

Prof. Montgomery is so distracted and shocked by the tragedy that at times he is irrational.

This is the seventh accident that has occurred in the aeroplane during the few months, but that in previous occurred were before the ascensions, which were postponed on account of the weather.

It is believed by those who are fa-miliar with the machine that a rope caught over one of the wings, making the aeroplane unmaneuverable, in the tangle, the wing doubtless was broken, and the aeronaut thus rendered helpless.

Prof. Bell of the college was the first to observe that something was wrong with the machine.

As Malone was falling, Prof. Bell, realizing that death must speedily follow, raised his hands in the air, and solemnly made the sign of absolution.

### MALONEY'S CAREER.

Maloney was not married, but he has a mother, who resides in the Mission, San Francisco, and numerous relatives also in that section of the city. For a long time he made balloon ascensions in Glen Park, San Francisco, but for a year or so past he has had charge of the school, and has been making several successful ascensions. He was formerly a member of the League of the Cross cadets. He made the ascension this morning on their account. He was highly enthusiastic when start-ing, saying that he would make the greatest flight ever attempted. He was known as "Prof. Lascelle" in his chosen profession. His daring was demonstrated when he made the first ascent in the Montgomery aeroplane, at Leopold, in the Santa Cruz Mountains, placing his confidence on the results of his experiments, and he was greatly im-pressed with the results, and watched with great care during a series of demonstrations by the inventor. He was satisfied that the aeroplane would keep its balance, and sustain the weight of the man, for it had been proven to him that the machine never turned over, but always sailed on its keel, and its sustaining power was in a definitely-ascertained ratio to the area of the wings. His home was in Santa Cruz, and he was about 30 years of age.

Communication with St. Michaels, Nome, and the lower Yukon River points as well as with Seattle, the cable office at Seattle has been tested to its capacity since then with the accumulated business. Maj. Glassford states that the line is now up the entire distance.

At the second day of the Lewis and Clark Dental Congress there was an increased attendance and a growing interest in the clinical work, which took up the greater part of the day.

The Exposition of the Sacramento Valley Development Association have decided to elect State Senator Marshall Diggs of Yuba president of the association, vice Will S. Green, deceased.

Mrs. R. F. Waterbury, mother of the inventor of the Waterbury watch, died last evening at the Janes Hotel, San Jose, of heart disease. Her home was in New York. She was 88 years of age.

## FRIENDS TALK FOR SAUNDERS.

*Over Young Man Was Killed for His Money.**Police Do Not Credit Story of Miss Williamson.**Coroner's Inquest on Queer Lodging-house Murder.*

Was Richard T. Saunders murdered for his money or did Miss M. H. Williamson kill him because he insulted her?

It would be impossible to convince the half-dozen residents of Compton who attended the Coroner's Inquest that the latter theory is correct.

M. H. Biss of Compton was the only one called before the jury to throw some light in the direction of establishing a motive for the murder.

Mr. Biss testified that Saunders worked for him sixteen months; that he came to this city less than two months ago; that he was of the most exemplary habits; never was known to drink a drop of liquor; was a member of the Methodist Church and known as the most exemplary young man in Compton.

After the inquest Mr. Biss said to a reporter of The Times: "That man was never murdered for insulting a woman, and you couldn't make a man or woman in Compton believe it. He was murdered for his money. When he left me less than two months ago he had about \$400; he was a very frugal man and could not have spent it all, and there is no doubt in my mind that his money and not an insult was the thing which caused his murder."

"Why, he was studying for the ministry; and if he had been short of money he could have sent to Compton and got all the money he wanted from a half-dozen people."

A John C. Shultz, man who heard the conversation, corroborated Mr. Biss and remarked that to his mind the fact that Miss Williamson had \$200 to hand over to the police and that Saunders had no money whatever, was worth careful investigation.

TESTIMONY AT INQUEST.

The circumstances of the shooting of Saunders at the Piedmont rooming-house on East First street by Miss Williamson were recounted, though there had been no eye-witnesses of the deed.

Shultz, the ironworker, who lives in the same house, said he heard Miss Williamson shout "Saunders! Put your clothes and get out of the house," but he did not see anything until he went out into the hall after hearing the shot fired. He said the door of Saunders' room was locked and he had to break through the window which opened into the hall. After he went out Miss Williamson told him she had shot Saunders and she then unlocked the door of his room with her key.

Policeman Hurt, who was the first to enter the house, stated that Miss Williamson met him at the door and said:

"For God's sake hurry up; I've shot him."

He further testified to the finding of Saunders on his hands and knees, though apparently unconscious.

Dr. G. W. Campbell, who made the autopsy, testified that he extracted the bullet from under the scales behind the victim's right ear, and that there was no odor of liquor or of any drug about the contents of Saunders' stomach.

The verdict of the jury was that the deceased had come to his death from "a gun wound inflicted by one Miss M. H. Williamson with intent to kill."

Witness Shultz was asked if he had ever heard any quarrel or seen anything wrong about Saunders during the week or more he had been at the Piedmont, and he replied in the negative.

Rev. J. L. Spencer, pastor of the Compton Methodist Church, who was not called before the jury, said to a Times representative:

"It is almost impossible for us to believe the statements made by this woman against Saunders. We know him so intimately and are well assured that such actions are foreign to his nature."

He was a most exemplary young man, Scotch-Welsh man, who had acquired a good education by his studies alone. He was always studying when not at work, and had a fine collection of first-class books. He was active in our church and social activities, and was a highly-minded, honorable man. We cannot believe the reports of the gross conduct imputed to him, as all his previous life with us has shown a modest disposition entirely at variance with these reports."

HAD A VIOLENT TEMPER.

Detectives of the police department who are at work on the lodger case believe that the woman deserves punishment. They say her reputation is not as good as has been claimed by her friends and they have evidence to prove that she is possessed of an un-governable temper.

On the second occasion the police have been called to the lodger because the landlady, who seemed to allow her temper to get the better of her whenever a collector presented a bill.

They say the woman invariably claimed that the collector had insulted her. Her lodger, as a rule, were of the rougher class, but she took issue at the slightest provocation.

Chief Hammel is not disposed to lightly view the homicide because the property is involved, and he is making a searching investigation and will present his evidence when the case is reached by the Superior Court.

Miss Williamson was still hysterical yesterday, but during her calmer moments she expressed no regret for her act.

QUICK DETECTIVE WORK.

Jap Who Had Robbed a Roadhouse Captured as He Boarded a Train.

Quick work on the part of Detectives Steele, Craig and Smith last night resulted in the capture of a thief who had just looted the cash drawer of Smith's suburban hotel on the Pasadena short line of \$93.50 and was preparing to leave for San Francisco.

J. Ajiro, a Japanese, who had been in Smith's employ for over two years, and whose integrity had never been questioned, and members of his family were at supper last night. Ajiro, who was a waiter, suddenly disappeared, taking all of his effects with him. A box in which money was kept behind the bar was missing when Smith began to suspect the waiter.

The police were notified and the detectives caught the Jap as he was preparing to board the train for San Francisco. The box, \$93.50 of the money, was taken and ring and a ticket to San Francisco were found in the man's possession.

Ajiro had written a letter to his employer, in which he stated that he had

taken the money, but he intended to return it as soon as he reached Japan. The Jap said he intended to mail the box to San Francisco, and that the burglary or grand larceny will be preferred against Ajiro, who is now in the City Jail.

## NEW LIGHT ON AN OLD STORY.

KINIRY, WHOLESALE BURGLAR, MAY BE MILL'S MURDERER.

Clews Discovered Which Point to Kiniry as Villain Who Committed Horrible Crime in Sixteenth-street Vacant House—Los Angeles Society Girls May Have Danced With Him.

"Blew! Wouldn't it make the chills crawl down your spine!"

The porch climber, Kiniry, who is in sight, is now believed to be the man who murdered the lawn agent, Mills, in a vacant house on Sixteenth street; positively the most hellish crime that this city has ever known.

The detective who did most toward bringing Kiniry to prison claims to have discovered a strong clew pointing in that direction. Among other things, it has been discovered that Kiniry when arrested had a key that fitted Mills' safe vault.

Kiniry, among his wholesale confessions, when arrested, was having designs on Mills' safe, but it was not suspected at that time that he had anything to do with the cruel and shocking murder of the man. The police were then working on the theory that some woman, wronged, who had killed Mills.

When arrested, Kiniry claimed that he always worked alone since his trouble with the boy Goldsmith who was killed with the Oakland policeman, on account of whose killing Kiniry had given a life term.

He must have lied if the present story amounts to anything. He could not and did not kill Mills single-handed. The conditions under which the coming home of the workers to the back room of the house of Sixteenth street indicate that several strong men had a hand in the job.

It will be a pleasing reflection for any girl who used to go to dances with Kiniry, at the University or wherever they have been encircled with the arm that helped strangle a man to death.

Another mystery about Kiniry has been cleared up; he need not be learned while Kiniry was here—he never would tell—how he managed to dispose of all his plunder.

It appears that he had a "fence" in his mother—or other female relatives.

The jewelry that he got from houses in Los Angeles he immediately dismantled by taking all the stones from their settings.

He had a queer way of getting it. Each of the few jewelers known to the trade as California curtailed his cushions and the like. He used to send back yucca and shell ornaments full of stolen jewels.

When he arrived in Canada, his master unhooked the plunder and shipped it gradually back into the United States, paying duty on the diamonds.

From the same source came the money for his defense. The Oakland policeman, according to them, they could clear him of the charge of complicity in the murder of the Oakland policeman and \$3000 is they saved his necks—which they did.

Kiniry, when he left here, was sentenced to a sentence for life, confident of getting out in a few years by parole or escape.

WOMAN STOLEN.

Love for diamonds brought grief to Grace Blackwell, who couldn't resist the temptation when she saw two \$400 sparklers on the dresser in the room of her friend, May Larsen of No. 124 Wilmington street.

The Blackwell woman had "just dropped in" for a little chat. That was six weeks ago. Since that time Miss Larsen has been anxiously searching for her lost jewel. Yesterday detective arrested Blackwell at the ranch house recently during Huster's absence, and she was brought to the city. They planned to lay a trap for her this week, and in the meantime Huster was not to let his wife know that he was aware of the facts. This was the real cause of Huster's rage Friday night, although his wife did not know it.

A Poor Cook Makes

Tasteless Postum

## SEND IT BACK

MAND that it be boiled full 15 minutes AFTER ACTUAL BOILING BECAUSE (not only 15 minutes after the pot is put on the stove.) A curious chemical change takes place between twelve and fifteen minutes after Postum begins to boil. This change releases the food elements and produces a crisp, snappy coffee taste so fetching that the makers have been many times accused of mixing coffee in. But that is false. The full analysis of Postum made by the best American authorities, shows that it is made only of the selected parts of cereal grains, treated by complex methods in the factory.

## Postum is Absolutely Pure

and entirely free from the smallest grain of coffee.

Remember, you get a charming coffee taste if you insist on having your Postum made right, and that is easy. Full and simple directions on package.

Remember, also, that when you leave off coffee you stop the drugging of stomach and nerve centers and give Nature a chance to heal your ails. In this work Postum is a most powerful aid, for you not only have your hot morning beverage, but take a liquid food containing the very elements Nature must have from which to rebuild the gray matter in nerve centers and brains that have been broken down by coffee.

Ten days' trial works wonders.

Small matter what form of stomach, heart, kidney or nervous disease you may have, for the probabilities are that your troubles have originated from a nervous system thrown out of balance by coffee.

Prove your own case by leaving off coffee 10 days and using Postum.

It may be worth more than a gold mine to you.

Get the little book, "The Road to Wellville," in each package.

"There's a Reason" for

## POSTUM

#### CASH PRIZES ARE ADDED.

The scholarships, whose cash value runs into the thousands of dollars, will not be the only prizes at stake. The cash scholarship, with cash added to help defray the student's incidental or living expense while attending school. Besides the scholarships the fourteen students who finish in the lead will receive cash prizes approximately as follows:

- 1. Cash with second choice of scholarship, \$150.
- 2. Cash with third choice of scholarship, \$125.
- 3. Cash with fourth choice of scholarship, \$100.
- 4. Cash with fifth choice of scholarship, \$80.
- 5. Cash with sixth choice of scholarship, \$60.
- 6. Cash with seventh choice of scholarship, \$50.
- 7. Total cash awards, \$1000.
- 8. Cash with eighth choice of scholarship, \$75.
- 9. Cash with ninth choice of scholarship, \$60.
- 10. Cash with tenth choice of scholarship, \$50.
- 11. Cash with eleventh choice of scholarship, \$40.
- 12. Cash with twelfth choice of scholarship, \$35.
- 13. Cash with thirteenth choice of scholarship, \$30.
- 14. Cash with fourteenth choice of scholarship, \$25.
- 15. Cash with fifteenth choice of scholarship, \$20.

#### CLOSE QUITS.

Secretary to Police Captain Tenders His Resignation Rather Than Face Charges.

C. E. Close, quasi secretary to Police Captain Auble, tendered his resignation to Chief Hammel yesterday afternoon and it was immediately accepted. Close had been in office only a few months, but the suddenness of his departure caused little surprise in police circles, as it had been openly rumored that charges against him were forthcoming.

The office of secretary to the captain was only recently created. The vacancy has been filled by the temporary appointment of Patrolman Tom Broadhead, whose record in the captain's office is enviable, but a civil-service examination will be held in order to select a permanent successor to Close.

#### PRIZES AT STAKE.

The contestant having the highest score at the close of the contest will have first choice of the following scholarships. The second highest will have second choice and so on to the bottom of the list. From time to time the list of scholarships will be enlarged as the number of contestants multiply. The Times already has one and in some instances two scholarships in every one of the following institutions. Every school is considered excellent in its line.

University of Southern California.  
Throop Polytechnic Institute.  
Dobinson School of Expression.  
Occidental College.  
St. Vincent's College.  
Los Angeles Military Academy.  
Cumnock School of Expression.

## Big Profits in Strawberries at Montebello

The above picture shows a typical strawberry farm at Montebello. Strawberries have proved to be extremely profitable in this garden district, which is just four miles east of the city limits on the Salt Lake Road, and may be reached by trains in about 15 minutes. Oranges, lemons, olives, nuts, deciduous fruits, berries and all the vegetables thrive successfully here and substantial incomes are being made on even 5-acre tracts. The distinctive feature of Montebello is the inexhaustible supply of pure water—pronounced by experts to be the most permanent supply in the southwest. The source of the supply is from five great wells. Water is piped in front of every lot. A modern pumping plant has been built at considerable expense. Five water shares are needed with each 5-acre lot. D. O. Stewart and S. T. Saunders, the well-known promoters of Montebello, this week commenced the erection of their future homes on the tract.

Howard & Smith, the florists, have twenty acres of roses on this tract and have recently added five acres to their holdings. They state that the soil and water conditions are the best and cheapest in the country.

S. T. Denton says: "I bought ten acres at Montebello recently—just what I've been looking for for ten years. The elevation, the climate, and water facilities are to my mind perfect."

Five-acre lots are offered for \$250 to \$375 per acre. The terms are cash balanced in from 1 to 4 years at 6 per cent. There are free excursions to Montebello every day. Excursion trains leave every day at 8 a. m., 11 a. m. and 2:45 p. m. Tickets may be secured at the office of D. O. Stewart & Co., 128 S. Broadway. The office is open Sunday from 9 to 12 a. m.

## REDONDO

## HILL CITY

anything yet seen on the Pacific Coast, and a bath-house in which two thousand people can disport.

Go to L. T. Garnsey, President of the Redondo Railway, and ask him how much lumber came in last year. See what Huntington has made of Long Beach and how many people he has made rich there.

Redondo will be even greater.

Get in now while the "cold feet" craze is on.

Get in at slight valuation above company's profits.

Elena street will be graded, sidewalked and curbed right away. I have a 100 ft. lot there at reasonable price. Good for flats or cottages. Two blocks from hotel.

Opal street is on the line of a cross-town railway. I have 40 feet there—a corner.

On the business street, a half block from W. M. Garland's office, I have 52 feet front. This is the money maker.

Every one of these will stand you well if you hold for one year or five.

And I have bargains to suit every purse.

Use your judgment.

Look at the railway facilities and the proposed railway winding on to San Pedro.

Look at the business facilities as a harbor.

Look at the facilities for a hill home over the ocean.

Look at the magnificent hotel facilities today.

Look at the bathing facilities.

Look at hill and valley facilities for a beach town.

Three railroads center there today.

No beach presents a fairer prospect for good returns.

Tomorrow "cold feet" may be of the past, and you cannot buy in at any advantage.

Buy now. Buy quick.

## THE CITY IN BRIEF.

## NEWS AND BUSINESS.

## RAISING-SEEDING.

Two more suits were brought in the United States Circuit Court yesterday by the United States Consolidated Seed and Raisin Company of Fresno against B. H. Paul and others for alleged infringement of a patent on a raising-seeding apparatus held by the plaintiff concern, which asks for an accounting and an injunction restraining the defendants from further use of the disputed contrivance.

## SUNDAY-SCHOOL PICNIC.

The Sunday-school of All Saints Episcopal Church, held a picnic at Elysian Park yesterday, in which not only children but a large number of older people took part. Mrs. Trew, wife of the rector of the parish, received a basket of violets as a gift, and nestled among the flowers she sang a solo. The basket was presented by the boys choir of which she is director.

## FOR ZIPZAG.

D. S. Griswold of No. 239 Winston street will leave tomorrow for Santiago de Chile, where he will have charge of the installation of an up-to-date electrotyping plant of American make. In the meantime, being one of the foremost Eng. lith. publications in Chile, Mr. Griswold returned to Los Angeles a few months ago after successfully installing a plant in the offices of El Imperial of Mexico City. He expects to be in Chile a year.

## GRANGE IN TOWN.

Claremont Grange, who is prominent in business and associations in San Francisco, and who is a member of the Wadsworth-Brownson faction of the local Provident-Fidelity associations to have a hand in the squabble now on, arrived from the North yesterday and registered at the Lankershim. A special meeting of the Fidelity Association, called by the recently deceased President Borden, is to be held here tomorrow, the announced purpose being to elect a new board of directors.

## HOTEL DAVIS COLLAPSED.

Considerable excitement was created at Fifth and Spring streets about 10:30 o'clock last night by the spreading of a report that the immense Biltmore-Rowan Hotel was collapsing. The hotel still stands this morning, though many were at work on the seventh story of the structure until after 10 o'clock, and on leaving they placed a wheelbarrow of tiling in such a position that it fell down the shaft, seven stories, to the ground floor. The noise alarmed people in the vicinity, who feared great damage had been done to the building.

## DEATH OF REV. N. C. BRADLEY.

Rev. Nathaniel C. Bradley, aged 59 years, died on Monday at his family residence, No. 1309 West Fortis street. Funeral services will be held this afternoon at 1:30 in the University Methodist Church, and the interment will be in the G.A.R. plot at Rosedale Cemetery. Bradley was the father of Mrs. Carrie L. Gummere, wife of Etta E. Arthur B., and Avis M. Bradley. The children, with the widow, survive him. He was a minister in the Methodist Episcopal Church, a veteran of the Civil War, and member of Stanton Post, Grand Army of the Republic, and a Mason.

## BREVITIES.

If you want quiet, cool room, see Alwood, manager Coronado Mansion, 611 Corbin street, or annex on Rampart street, now open.

Natick is the place to get your dinner—every day for that matter—best 25c meals in city. Hart Bros., prop.

Dr. Pritchard, specialist, 453½ S. Spring.

## TENDERED A RECEPTION.

Local Committee Shows Appreciation of the Work of Conductors of Music Institutes.

A delightful reception was given in the social rooms of the First Methodist Church last night, in honor of Grant Coffax Tullar and L. H. Meredith. About 200 invited guests were present and an entertaining programme was given. Dr. H. W. Brodbeck, chairman of the committee under whose auspices the recent Sunday-school music institutes were held, was master of ceremonies, and Mrs. Brodbeck was hostess.

In a number sung by an impromptu chorus Mr. Tullar showed himself the accomplished musician and in a number of stories he proved himself an equally apt story teller, particularly in one on "What would you do next train leave for Pomona?" As a result he proved that he was a master of the rendition of a touching poem.

Mr. Meredith's response was two splendid baritone solos, in which his voice shone with the depth and mellowness of an organ. There was a master of music in his voice and as a driller of the "Sunshine Choir" he has done splendid work.

R. N. Jeffery, a well-known and popular violinist, sang with great effect, accompanied by Miss Johns, a recent arrival in the city. Miss Johns also rendered a piano solo showing splendid touch and discrimination.

Little Annie Row sang a Miss Row on the piano. She did so sweetly that she was brought back for a repetition of the song.

The orchestra of the Methodist Sunday-school furnished fine music while refreshments were served.

Dr. Brodbeck referred to the probable return to this city of Messrs. Meredith and Tullar next year, under the auspices of the State Sunday-school Association, and there was general agreement that the association would go to Pomona to hold the closing concert of their institutes at that place. Annie Row will go with them as soloist in the juvenile concert and Lottie Buisseret will be the violin soloist.

## WAITED YEARS FOR HER.

Recent Marriage in Los Angeles Explains the Disappearance of a Sandusky Girl.

When on June 26, Philip King Sullivan led Miss Catherine Hanehan of Sandusky, O., to the altar in this city, few of the friends of the groom here knew that the marriage was the culmination of a romance of sixteen years and none for a moment thought that, at the time of the marriage, the relatives of the bride were vainly searching for her. Sullivan formerly lived in Fremont, O., and Catherine Hanehan and he were sweethearts sixteen years ago. The mother died in several months ago, he proposed that she join him here and be married, she consented.

When Miss Hanehan left home it was

announced that she had gone to visit relatives in Texas, but when her folks at home received no word from her and learned that she had not gone to Texas, they secured the services of detectives in the effort to find her. This effort was fruitless and they knew nothing of her whereabouts until she wrote to them from Los Angeles telling them she had married Mr. Sullivan.

Upon leaving home she met her lover in Chicago and he brought her to Los Angeles, where they were married. Mr. Sullivan had prepared a fine home for his bride and they will reside here.

## PERSONAL.

Superintendent H. V. Platt of the Southern Pacific returned to town yesterday.

A Chicago and Northwestern excursion is at the Lankershim. V. Z. Bayard, excursion agent of Chicago, is in charge.

W. H. Greer, a wealthy cattle man of New Mexico, is in town with his wife. They were formerly well-known residents of Los Angeles. They are at the Van Nuys.

A party of 150 tourists from St. Louis came to town over the Salt Lake route yesterday. They are at the Van Nuys. Broadway, and will go to Catalina today. The party is in charge of H. G. Gregory of St. Louis.

Miss Mary A. Woodworth, a well-known teacher who has been employed in several schools in the city, and who was elected to a position in the city schools for the ensuing year, is seriously ill at the Good Samaritan Hospital.

Leon T. Douglass of Philadelphia, vice-president of the Victor Talking Machine Company, and Peter Bacigalupi, his father-in-law, general agent for the company, are staying at the Westminster Hotel. They have gone over to Catalina for a few days in the hope of catching a tuna.

## PUBLIC SERVICE—OFFICIAL DOINGS.

## SUMMARY OF THE DAY.

Mayor McAleer, at an executive conference with the Council yesterday morning, proposed the names of John R. Mathews, E. T. Perkins and C. O. Winters for places on the municipal board of public works. The Councilmen would not agree to ratify them and the Mayor did not submit the names at the open Council session.

Police Commissioner Mason yesterday morning asked the police board to revoke the liquor license held by the Palace Cafe.

An executive conference between the Mayor and the Council was yesterday held for the purpose of discussing library matters.

The office of real estate firm against Miss H. Davis is proving to be something of a puzzle to Judge James.

The Union Oil Company is again on the trail of T. S. C. Lowe.

AT THE CITY HALL.  
COUNCIL BALKS  
AT MAYOR'S MEN.

## DECLINES TO RATIFY BOARD OF PUBLIC WORKS.

Tells Mayor That It Desires Time to Investigate Qualifications of His Three Appointees—Executive Conference in Postponing Submission of Names Indefinitely.

Mayor McAleer yesterday submitted to six members of the Council at an executive conference, the names of his municipal board of public works.

These are the Mayor's choice: John R. Mathews (chairman) E. T. Perkins and C. O. Winters.

Not one of the names submitted met with the approval of all the Councilmen present. The result of this conference was that the Mayor sent no appointment to the Council.

After the executive conference, the Mayor told a reporter of The Times that he has not yet made a definite choice; that the names given above are those of three men who have been strongly recommended to him for the places.

"I have not yet definitely decided upon the nominations, which I shall make," he concluded, "I desire to make the selection in the light of the fact that the men who are to hold the position may post themselves on the work they are to perform before they take charge. There is a great deal of work that they can do better at the present time and the first great task is to clean up.

Hannum and Healy declined to vote on the ratification of any of the nominations proposed by the Mayor, on the ground that they desired time to consider whether the choice is the best that can be made.

The Councilmen objected to E. T. Perkins, as the engineer of the municipal board. The Mayor showed them a list of names of prominent business men who have recommended the appointment of Perkins. But the Councilmen declined to accept this as conclusive.

C. O. Winters met with pretty general approval, but one Councilman objected on the ground that he has attained more prominence in politics than in planning municipal improvements. He regards Mr. Winters as a "Court-hopper" and thinks that some one else might be selected more to the Council's liking.

Objection was also made to John R. Mathews, on the ground that the only things which he has done to distinguish himself in Los Angeles have been along lines which diverge from street improvement and the class of municipal work over which he would be called upon to preside as chairman of the municipal board.

The Mayor showed the Councilmen petitions from business men asking for the appointment of both Mathews and Mathews. He said that he had selected these three from a list of over 200 names proposed to him; that his chief consideration had been the probity of the men and their known ability as shown by work which they have already performed.

The conference lasted for over an hour; the more discussion turned toward details the further the Mayor and the Councilmen were from reaching a conclusion.

Monday afternoon a delegation of business men went on to the City Hall to present a request that the name C. O. Flemming, secretary of the Automobile Club, to be chairman of the board of public works. They also had two other names to suggest; neither of which appears in the list submitted by the Mayor to the Council.

Under the charter provisions, the Council can propose no nominations for the board, but that body is required to ratify the Mayor's appointments.

Factitious politics has entered into the question of selecting members of the board and the prospects are good for a long deadlock between the Mayor and the Council.

A prominent Republican organization politician is credited with the statement that "Mayor McAleer must select three men friendly to the organization or there will be no board of public works."

## COUNCIL MAY ACT.

THAT LIBRARY MUDDLE.

Confronted by the customary petition from property owners asking that the Council add the Mayor in investigating the cause, the Council rejected the request of Librarian Miss Jones yesterday for the first time showed a disposition to sit up and take notice.

Instead of referring the petition to the Mayor, the Council sent it on to its own Legislative Committee, which it added request that the committee get from the City Attorney an opinion as to whether it is in the province of the Council to make such an investigation.

However, the Council has held that the Mayor must make the investigation single-handed. At an executive conference before yesterday's Council session the Mayor asked the legislators to join with him in the library investigation. Again the legislators declined to bind themselves to any such action.

Chairman Trueworthy of the library board yesterday returned to the city from an abbreviated vacation trip. When leaving Los Angeles Dr. Trueworthy said that he would be away for six weeks.

Commissioner Marshutz yesterday held a short conference with the Mayor. Mr. Marshutz is the only library commissioner appointed by Mayor McAleer. Immediately after the board had dismissed Miss Jones Mr. Marshutz said that he was in favor of public investigation if any considerable number of people showed a desire for such action.

"I am here to welcome an investigation," said Mr. Marshutz yesterday afternoon, "although I hold that it can have but one result. The people will learn that Miss Jones was removed for good cause."

Eastern librarians returning from

the meeting of the American Library Association in Portland, Or., are passing through the city in considerable numbers. Some have been attracted here by the reports of the removal of Miss Jones which reached the national association.

Miss Electra C. Doren, librarian of the Weller School at Cleveland, O., yesterday afternoon made a careful inspection of the local library.

"I have always been very much interested in the Los Angeles Library on account of its remarkable work done by the members of its training classes," said Miss Doren last night.

These classes are doing probably the best work in the West. The Los Angeles Library is noted all over the country for its fine work in amateur class work. It is always pointed to with pride by members of its training classes.

The announcement of Miss Jones's removal came as a great surprise to the American association. Among its members there is but one opinion.

Miss Florence J. Olcott, head of the children's department of the Pittsburgh (Pa.) Public Library, yesterday visited the branch library stations in the suburbs. They expressed themselves as agreeably surprised at the strides which Los Angeles has made in the field of branch libraries, claiming the ones visited in amateur class work.

They added their tribute of praise to Miss Jones for the fine work of the local training classes.

Miss Jones's friends have wired with the news of the following letter, which was received by a Los Angeles clubwoman a couple of days ago from Joy Lichtenstein, librarian of the San Francisco Public Library and president of the California Library Association.

The California association passed resolutions denouncing the removal of Miss Jones, expressing confidence in her ability as a librarian and declaring that the action of the library board was in hand in an emergency.

FOR CHINESE SPORTS.

Wong Tong, a violet-gowned Celestial, yesterday made application to the Police Commission for permit to conduct a shooting gallery at No. 217 Ferndale Alley. His sponsor was Far Gao, Chuk Kee, 1280 Yen Wong St., and Hing Goon. His petition went to the Chief of Police for investigation and report.

## JAP SHOOTING GALLERY.

E. K. Nakamura, an enterprising young Japanese, made application to the Police Commission for permission to conduct a shooting gallery at No. 315-317 Commercial street. He explained that the gallery will be used chiefly by his countrymen, who, he said, are very desirous of learning to shoot straight. The local Japs have lost interest in pool and billiards, which, up to a year ago, were their favorite games. They now desire to practice on something that might come in handy in an emergency.

FOR LICENSES BREWING.

Commissioner Mason spoke right out in Police Board meeting yesterday morning, asking that the board cancel the license of the Palace Cafe.

He said that he has been doing some independent investigating and that he is convinced that the proprietors of the Palace are paying no attention to the rules of the Police Board.

Commissioner James responded that Mason's action, while well intended, is a little premature. "There are at least two other things to be considered," he said. "One is where the same conditions exist as those reported by Mr. Mason at the Palace. I think that we should act on them all at once."

Mason was ready to go after the board without further delay. He has seen something at the Palace on a recent nocturnal visit that, to use his own expression, "put a bad taste in my mouth that will not wash out until we revoke that license."

Continuing, he told his brother commissioners that he has seen drunken women carried up the steps from the Palace and driven away in hacks and automobiles in company with tipsy men. He said that the proprietors make no pretense at the enforcement of rules forbidding selling liquor without meals to women.

The board by a unanimous vote continued the deliberations over the Palace license for one week. During the interval the police department will make an investigation of the charges preferred by Commissioners James and Mason.

## AUCTION POSTPONED.

The expected auction of a saloon license by the Board of Police Commissioners yesterday morning was postponed for one week, the commissioners having modified by filing petitions with properly frontal signatures affixed. Two other prospective bidders promised to bid on favored locations in the saloon district if allowed an additional week's time in which to secure the frontage signatures.

## HOWTON DISCIPLINED.

HE WHINES FOR PEACE.

There was a sudden cessation at yesterday morning's Council meeting of the obnoxious tactics for weeks resorted to by the alleged representatives from the Sixth Ward.

While Chief Cake and his Indians were whetting their knives in the lobby, Howton was running from legislator to legislator making all kinds of extravagant promises if they would only protect him from his constituents.

All this was occasioned by a rumor that the Council was going to take the petition asking that Howton's seat be declared vacant, from the files and refer it to the City Attorney.

Howton knows that the Council can fire him out of the Sixth Ward chair any time it so desires; that he gave up all title to it when he resigned under fire.

The fear that the Council will take such action has become a sword of Damocles to the discredited Sixth Warder. The only reason why it has not done so is that such action would necessitate calling a special election to elect his successor, which election would cost several hundreds of dollars. Howton is harmless where he is except to block and delay legislative action. For all other intents and purposes the Sixth Ward seat is now vacant.

Monday Howton became so reckless

in his misstatements on the floor of

the Council, telling such extravagant

lies about his brother members and insisting that they were statements of fact, that he was forced to apologize for all to get rid of him.

Then Chief Cake and members of his tribe came to the Council chamber waiting to catch Howton after he had been cast out by the legislators.

But Howton made such abject pleas for mercy that he was granted an audience and decided to give him one more chance. In his haste to show that he really means to reform Howton voted for the passage of the gas regulation which he has been holding up for three weeks.

One thing, however, the Council did do. They took away from Howton all semblance of the authority which he has been exercising as the city purchasing agent. The City Attorney ruled that Howton has signed this year was illegal because the material was ordered on his authorization instead of on the authorization of the Council.

Howton has been ordered to stop

in remaking the defense of the

gas regulation system occasioned by Howton's assumption of authority a short delay has been caused in the purchase of supplies. That this delay may not be prolonged, the Council adjourned to the 10th instant to take up the unconstitutionally requisition business.

Howton was last night made that

even this delay will work hardships on

some departments. It was alleged that there is only hay enough in the fire department to supply the horses for one day, and that further delay would result in turning whatever money she receives into the pension fund and during her lifetime herself would need all the property as community assets.

And the defendant widower avers that he was not without funds of his own after his marriage. He claims that his wife always received more than \$17,500, and that when they came to California in 1885 he purchased a ranch at San Jicinto for \$17,500, which he sold about two years later for \$12,200, and all of that was out of his own separate funds.

The real fight appears now not to have been over the will, but in the present suit wherein property rights are to be determined.

## SPITE, NOT THREATS.

KANELLOS MAKES NO SHOWING.

A party of Greeks gathered in Justice Pierce's courtroom yesterday to see fair play between two of their race, one of whom was howling for blood.

One Louis Kanellos swore by all the classic gods of his native land that his Caucasus had threatened him with drowning things, and in a fine outburst of frenzy had to tell him with flashing eyes that he could not be "bumped off."

Kanellos said that he had further use for his head and didn't want to lose it Caucasus started out on the warpath before he got out a complaint charging his countrymen with having made threats against him.

Upon the matter being inquired into it was discovered that no threats had ever been made, or, at least, if they had, no evidence whatever had been submitted to show the fact. It did appear, however, that some time ago a nephew of Caucasus named Kanellos tied his horses up by an attachment, finally getting judgment for about \$165. Kanellos had been in the dairy business until then, but that lawsuit ended his career as a dairyman. From that on he had no place to go with toward the Caucasus family, and when he had a chance, made such trouble as he could.

The case was dismissed.

## FORCE THE ISSUE.

SCHOOL BONDS HUNG UP.

That \$760,000 issue of bonds for common and high school purposes is likely to be hung up for some time yet. Yesterday the City Board of Education made a written demand upon the Board of Supervisors that the bonds be issued and sold, and, under advice from the District Attorney, the board refused to do anything of the kind.

Originally it had been set for the receipting of the bonds but in the meantime the matter of the school bonds issue was submitted to Dillon and Hubbard, the New York legal luminaries, to pass upon them. That firm refused to do so until the Supreme Court of the state had passed upon their legality. It was agreed that if two or dubious points had to be determined, and it is understood that one of these is that the Los Angeles school district includes territory that lies outside the boundaries of the city. This and the other question had to be determined, and for the purpose of having the matter settled as soon as possible the City Board of Education made the demand that was turned down yesterday.

Now it is up to the Board of Education to demand of the Board of Supervisors and by that proceeding the matter will drift into court.

## THE MATRON SO YOUNG.

TESTIMONY FOR ROY SHEPPARD.

A mature little matron of 19 appeared yesterday as the sole witness in behalf of Roy Sheppard, the young charged with having whored with a companion named Orville Roberson—knocked down and robbed Winfield S. Smith, a Monrovia ranchman engaged in trading in the city sights.

This interesting witness gave her name as Miss Clarisse Rodeaux, but under cross examination she confessed that she was a married woman, Mrs. G. Knapp Sheppard very well, she said—and met him in Arkansas six years ago, and was certain as certain could be that what she said was just so.

Deputy District Attorney McCartney inquired of the witness what she was doing when she was a maid in the home of Mr. and Mrs. Knapp. She said she had been nursing. She had been a trained nurse, but her skill was of no avail with this young man, for he died at Randsburg two days after Christmas, 1908. Mrs. Varney deserted her home altogether at that time.

## VALUE OF LIFE.

IN THE SUIT OF THE SALT LAKE RAILROAD COMPANY TO RECOVER \$75,000 AS DAMAGES FOR THE DEATH OF THE late Charles Stern.

His business took him to Randsburg, where he established his wife in a little home. But the location was disastrous to her and she took a holiday to San Fran and Minneapolis.

Now she is back to her work.

She turned up at Randsburg again, it was with a young man whom she said she had been nursing. She had been a trained nurse, but her skill was of no avail with this young man, for he died at Randsburg two days after Christmas, 1908. Mrs. Varney deserted her home altogether at that time.

## THE ATYES DIVORCE.

Emma A. Ayres became tired of having a husband that tagged after her, but did nothing for her, and yesterday was granted a divorce from William Ayres.

He had been a minister of the First Presbyterian church in New York in June, 1888, and at that time the husband had an excellent position. He went the pace, however, and embezzled funds belonging to the firm he was with, and his father had to make good to prevent arrest and prosecution.

After the divorce was granted, he

left his wife and followed her to her sister's home, and followed her there himself, and from that time to this has not supported his wife in any way. She supports herself by dressmaking.

The statements on either side are diametrically opposed, one to the other.

For Mrs. Davis has the best of the bargain, for she has title to the property, and one eyewitness to the payment of the \$300. On the other hand the real estate men are equally as positive as the wife that the \$300 never was paid over, and their statements are also corroborated.

But the testimony is not all in and the further hearing of the case will be continued this morning.

## PROPERTY IN TANGLE.

INGERSOLL CLAIMS SHARE.

BELMONT MATCH TROT.

(BY DIRECT WIRE TO THE TIMES)

PHILADELPHIA (Pa.) July 18.—

(Exclusive Dispatch.) The finishing

touches were today put on the training

of Sweet Marie (2-0) and Tiverton

(2-0) for their \$5000 match trot to-

morrow afternoon at Belmont track.

Everything points to a spirited con-

test between these grand circuit stars.

Hundreds were at the course today to

watch the practice performances of

the fast steppers. John Howell antici-

pated a broiling day early, and had

Tiverton on the track in the cool of

the morning. Howell jogged the geld-

ing three miles in 2:25, 2:27 and 2:19½.

Sweet Marie took the track at 2

o'clock in the afternoon.

She was in the saddle.

She made three miles in about the same time

made by Tiverton, giving just a faint

outline of what she will do in a real

test.

Americans declare that the miles in the

race will be negotiated around 2:08.

This means that the Belmont track

trotting record will be shattered by

several seconds.

## EVENTS IN LOCAL SOCIETY.

Mrs. E. H. BARMORE of South Grand avenue entertained on Monday afternoon at her pretty summer cottage, No. 227 Ocean Front, Long Beach, with a luncheon in compliment to ladies who danced the minuet on the closing day of the Friday Morning Club.

The table was decorated with white roses and maidenhair ferns, and after luncheon the ladies, clad in dainty summer gowns, lifted their skirts in the stately measures of the minuet. Mrs. Matthew Robertson in her own inimitable way, told quaint dialect stories of the South, and Mrs. W. D. Turner of Pasadena and Mrs. Edgar Lacey Swaine recited verses much to the delight of the assembled guests. Games were played and scores kept on a large scorecard with set verses to which were attached shells by means of pink ribbons.

Los Angeles ladies who journeyed

Mr. and Mrs. A. H. Giannini, who were married yesterday morning.

beachward for the affair were Mrs. Matthew Robertson, Mrs. W. D. Babcock, Mrs. F. R. Frost, Mrs. Oliver C. Bryant, Mrs. Edgar Lacey Swaine, Mrs. Kirk Lewis, Mrs. W. D. Turner of Pasadena and Mrs. John Kahn.

Left for England.

Miss Margaret Gibson, daughter of Mrs. William Gibson of No. 1634 South Flower street, left on Saturday for New York, whence she will sail for England for a stay of several months, visiting relatives.

Mrs. Gibson with her two daughters, Miss Annette and Miss Gibson, have taken a cottage at Ocean Park on Paloma avenue for the summer, where the girls who are in every sense of the word "Gibson" girls, will doubtless add to the gayety of the place.

Evening for Daughter.

Mr. and Mrs. August Nelson of No. 1214 East Twentieth street entertained a number of friends recently in honor of the daughter, Annie. The evening was spent in playing games, and first-prizes were awarded to Miss Ruth Hammel and Miss Hazel Anderson, and the second fell to Miss Grace Harrison and George Taylor. The home was decorated with red and green, and the porch was hung with Japanese lanterns. Refreshments were served on small tables. Those who enjoyed the evening were Misses Hazel La Rue, Lenora Clark, Hazel Johnston, Grace Harrison, Ruth Hammel, Lura Langston, Elvira and Bella Swanson and Mrs. Ulmer. Guests included Mr. and L. Burdette, Logan D. La Rue, Steve George and Frank Taylor, Emmanuel Johnson, Oscar Samuelson, August Swanson and Hjalmar Anderson.

Mrs. Nelson and the family expect to have for Coronado about August 1, where they will spend a month or so.

At Glenn Ranch.

Mrs. Warren Campbell, accompanied by her daughter, Miss Edie Campbell of No. 1009 W. 11th, Thirty-third street are spending a few weeks at Glenn ranch. They have as their guest at present Miss Marie Gavan of South Grand avenue, who will remain until the end of the week.

Beautiful Nuptial Mass.

The fairy bells of the yucca tinkled and hydrenia blossoms shone pearly pink against the fair golden and white attire of St. Vincent's Church yesterday morning, when Miss Leontine Denker, daughter of Mrs. Leontine Denker, became the bride of Dr. Attilio H. Giannini of San Francisco. Father Henry Wood of San Francisco, reading the beautiful nuptial service. As the party approached the altar, wedding music was softly played by Prof. Wilde. During the mass Tannhauser's "Evening Star" was played, and at the close Mendelssohn's march.

Miss Denker was attired in a lovely white muslin gown trimmed with Duchesse lace, over which the soft folds of the wedding veil fell, fastened with a wreath of lilies of the valley. She carried a large shower bouquet of Bride roses and maidenhair ferns. The veil was pinned with a heart-shaped brooch of pearls, a diamond, the gift of the groom's mother, Mrs. Lawrence Scatena. The groom's gift to the bride was a French hand-ring of diamonds.

Mrs. Florence Scatena of San Francisco, mother of the groom, was bride maid. She wore a frock of pink satin, made princess fashion, and with it was worn a large picture hat of pink Valentines lace with drooping feathers. Little Miss Cecil McLaughlin was a young flower girl, attired in a silk embroidered dress of white silk. She carried a basket of rose leaves, which she strewn before the party. George Giannini, brother of the groom, was best man. The young men who acted as ushers were Dr. B. F. McElroy and Mr. Fitzpatrick, both of San Francisco.

After the wedding a breakfast was served at the home of the bride, with the two families as guests. Over the large round table was spread an exquisite cloth of hand lace over pink silk and a mirror in the center supported a large crystal vase of Maman

MISS GRACE J. NORTON, Los Angeles society girl, who will sing at Chautauqua.

Dr. Charles Remondino, Dr. J. G. Blackwell, Lieut. Sylvester Loring, U. S. A., and others. Today Miss Mary Patterson of St. James Park will entertain with a luncheon for the same group. The same Wednesday evening Charles Ducommun will give a dinner at the Jonathan Club for them.

To Sing at Chautauqua.

Miss Grace J. Norton, one of Los Angeles' popular belles and sweet singers, will be heard on Thursday afternoon at the Chautauqua. Miss Norton is a native of San Francisco, and bears the distinction of having been the soloist at her own graduation at the High School. She has studied music here and is possessed of a sweet soprano voice of much strength and expression. She is a member of number of clubs at the Ebell Club and is a favorite with the club women.

Notes and Personals.

Miss Marie Houk, who has been East for the past three months, has returned home again, and is at the St. Mark's Hotel, Venice, for the season.

Mr. and Mrs. Samuel Wheeler, of Grand Rapids, Mich., arrived Sunday to spend the summer with her parents, Mr. and Mrs. Samuel Wheeler, of No. 1617 Maple avenue.

Miss Marie Patterson, for the past two years in the general office of the Santa Fe, left yesterday for Kearney, Neb., by way of the Grand Canyon. She will teach in Kearney for the coming year.

Mrs. Lawrence Scatena and her daughter, Miss Florence Scatena, and George Giannini are at the Hotel Van Nuys for a short stay, coming to this city to attend the wedding of Dr. Giannini and Miss Denker, which took place yesterday.

Mr. and Mrs. John E. Murray have been visiting friends at Ocean Park.

Mrs. Samuel Lazarus of New York and Mrs. A. Goldberg of San Francisco are visiting Mrs. Arthur Asher of No. 409 West Twenty-fourth street. Mrs. Asher with her guests will be at home to her friends on Friday evening.

Mr. Alexander Campbell of No. 129 South Hill street will leave on Wednesday for a visit of a few months in San Francisco.

Mr. Rosalind S. Peasey of No. 1417 Magnolia avenue has as her guest Miss Florence M. Green of Grand Rapids, Mich.

Mr. and Mrs. John E. Murray and Emmett Y. Murray of No. 1027 Ingraham street have returned from a three months' tour of the leading eastern cities.

Mrs. James Adams and daughter, Ruth, of No. 1928 Pennypackavenue are visiting relatives and friends in Pottsville, Pa.

## STEAMERS TO MEXICAN PORTS.

LOS ANGELES SYNDICATE MAY PUT ON A LINE.

Propose to Organize Company With Million Dollars Capital and Compete With Railroads for Enormous Carrying Trade from Mines Below the Border—Support Assured.

To organize a line of steamers from San Pedro Harbor to Mexican ports is the idea of George W. Parsons, the mining man. Plans are now on foot to form a company with a capital of \$1,000,000. The steamers will ply between Southern California points and Mexico.

Mr. Parsons has had the idea in mind for some time. He was in town yesterday discussing his plans with several prominent business men. One of these said yesterday:

"Yes, after several leaves these ships in San Pedro. All the time there is a heavy freight traffic over the Mexican border. The line of ships proposed will bring the ore from Mexican mines up to San Pedro.

"On their return journey they will carry merchandise and machinery to Mexico.

"Of course, they will be strong opposition on the part of the railroads, especially the Southern Pacific. But while this opposition might hinder the proposed company at San Pedro, Mr. Parsons' plan to make a seaport out of Redondo may be successful.

"There is nothing more definite to be given out at present, as the plans are not mature. But there will be no difficulty about securing the capital, as Mr. Parsons' idea is one that must appeal strongly to business men."

On the Mexican side there is ample promise of support to the proposed venture. Mine owners especially will welcome the new transportation line.

## THE PROGRESSIVE STORE

DE VILLE PARIS

Sole Agents for Celebrated Reynier & Gloves and Pictorial Patterns.

A. FUSENOT CO., 221-225 S. BROADWAY

The Peculiarity of the "Ville's" Great Removal Sale

Is you get the goods as advertised. We have just received from our New York buyers a large shipment of Women's Ready-to-Wear Garments, which have been purchased at such great concessions in prices, owing to the lateness of the season, that we are enabled to put these new goods in our sale and offer at such reductions as would be equal to 40 per cent. to 50 per cent. less than the price would be earlier in the season. The most critical dressers pronounce "The Ville's" the best ready-for-service garments shown in the city—you feel at home in them.

Note the Saving on NEW SUITS

The materials are either Mo-hairs, Panama, Henrietta or Checked Suitings, in black or large range of colors; made short blouse jackets and in 27-inch coats; trimmed in fancy buttons, braids and silk bands; deep girdles, either pleated or the new bell shape skirts, round lengths.

## San Bernardino, Riverside and Orange Counties.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

HAND OF LAW  
ON STRIKER.TRIAL FOR ALLEGED HOLD-UP  
IN SAN BERNARDINO.

After Quitting the Santa Fe This Totem Follower Obtains Employment Dispensing Liquor at a Needles Saloon and Takes the Opportunity to Steal Fine Cigars and Books.

SAN BERNARDINO, July 15.—Willie Cole, a follower of the Santa Fe boiler maker, who went out on a strike at Needles eighteen months ago, was placed on trial in the Superior Court this morning, charged with assault upon T. B. Holden, a Gold Roads miner, with intent to commit robbery. Not satisfied with his failure to hold up the Santa Fe, it is claimed he went into the hold-up business on a smaller scale.

After quitting the Santa Fe Cole got a position at dispensing liquor at a Needles saloon, and thus employed took advantage of the trust reposed in him by his employer to steal from the latter's stock sundry high-priced cigars and old whiskies, taking these by the box and flask.

He had been drinking freely with Holden, who had just arrived from the Gold Roads, when a small-dressed man, and, it is claimed, lured the miner into the rear of the saloon property, where he assaulted him with a club and knife, rendering him unconscious, but was escaped off before completing the object of his assault.

He was immediately fixed upon him, and after his arrest two Mexicans were found who testified that they saw Cole commit the assault and attempted robbery. Their statement is positive on this point. There is other corroborative evidence that the Mexican was aiding in the plan to rob the saloon.

He was now held charged with the robbery of his employer.

The defense has brought in about thirty witnesses who will try to establish an alibi. The case will probably consume the entire week.

RIALTO TROLLEY AGAIN.

The Rialto-San Bernardino trolley enterprise is again to the fore. It was expected that last night Seth Hartley of Cotton would apply to the City Council for a franchise to extend his line of the city to connect with a similar franchise to be obtained from the Supervisors, taking the route to Rialto, but for some reason the application was not made.

It is certain that something is doing in this line. Seth Hartley has promoted the San Bernardino Valley Traction Company, the big system now operating through this valley, and has interested capital in the Rialto line, which will probably become a part of the Huntington system. Supervisors are extending lines to various parts of the valley to tap the fruit-growing sections, and these are supposed to be Huntington or Salt Lake employes.

With respect to the extension of the trolley system here, it is certain that Hartley will win, and the people of Rialto will probably be able to ride to San Bernardino by electric cars within the next nine months. The local system only taps a small part of the residential section of the city, which lies to the northeast, west, and northwest, and will have to ride to Rialto, with a branch extending through that section, would pay big dividends, it is a bad condition.

DRY SINCE THE QUAKE.

Has the draining of the earth of its petroleum product at Olinda anything to do with the big earthquake which shook this section Saturday? This is believed to be a pertinent query in view of the fact that the Olinda field has been seriously affected by the tremor. The most serious trouble is found in the big cut, which is not but a dry hole, while just before the quake it was pouring out a constant and phenomenal flow of crude petroleum.

For a depth of ten or more feet the well is choked with sand and rocks. The officials believe that the earth movement, which obstructed this cut, has completed the well once more to be the pride of the Olinda and Fullerton oil fields, but some oil men who work in the field, believe that the bottom has dropped out of the gusher, and in order to become a wonder again, it will have to be drilled to a great depth.

It is upon this that the theorist bases some of his conclusions, mixing earthquakes and oil. He argues that the deep well which the Santa Fe has drilled in Olinda, some of these holding tanks, which are the pride of the world, have gradually drained out the petroleum, leaving a system of deep caverns, and the weight of the earth's crust is gradually crushing these caverns, and as tons of great slices of earth are falling, the bottom of the caverns, the far-shake of the earth: and that the earthquake Saturday was nothing but a landslide in one of the vast subterranean chambers, which the Santa Fe had drained of its petroleum.

SAN BERNARDINO NOTES.

The San Bernardino Gas and Electric Company has filed answer to the suit for \$200 damages instituted by H. N. Bracken, backed by the Home Gas Company, in recovering the expense of removing the gas line from the earth. The suit was filed in the Superior Court, and the defendant denied that the defendant damaged the premises occupied by Bracken in removing a certain gas service recently, and sets forth that Bracken has no suit coming, as the property is not his, but belongs to W. E. Hooper, mortgage holder, and John D. Hartley.

The findings in the suit for \$300 damages brought against P. B. Hockaday and R. R. Simpson for damages growing out of a real estate deal, were filed this morning, in which Judge Oster states that the defendant admitted his desire to cheat, and defend the plaintiff, and succeeded, knowing that they misrepresented the facts when they traded her a \$500 ranch, claiming it was worth \$200, and gave her \$200 cash for a property worth \$300.

Frans Helle, Sousa's soloist, is with the Coronado Tent City band.

REDLANDS.

SALT LAKE ROAD COMING.

REDLANDS, July 18.—Since a party of Salt Lake surveyors visited Redlands last week, gossip has been rife as to their business here, and information has leaked out regarding plans to run the main line from Riverside to Daggett through Redlands. At yesterday's meeting of the directors of the Board of Trade, action was taken to make Redlands a point on its main line. A special committee composed of A. G. Hubbard, C. L. Hayes, Henry Fisher, E. W. Cane, E. S. Graham, W. W. Campbell and J. J.

Prendergast was appointed to represent the board in conferring with the company.

It is reported that the Salt Lake five survey corps a road between Redlands and Barstow, three of them in the Yucca valley. The grade up through the Yucca will be a stiff one, but not insurmountable and a line through that section would open new possibilities to the Rich ranching country, and would not be wholly without profit to the road.

The great flueg horn soloist, Frans Helle, from "Sousa's Band," at Coronado.

MELON SEASON  
AT THE END.COACHELLA CANTALOUPES ARE  
EIGHTY CARS SHORT.

Grovers Became Apprehensive of Losses and Shut Off Water from Their Fields—When Reports of the High Prices Came They Irrigated Again, but Too Late.

COACHELLA, July 18.—The cantaloupe crop is practically at an end. The last carloads go out today. The total number of cars from the valley, up to Saturday, was 340 for the season—424 from Coachella and 66 from Thermal. Of these 22 cars were sent by express, 48 by expedited freight and 152 by regular freight.

The crop was about eighty carloads short on account of the sudden drop in the eastern market. This was caused by an oversupply. The growers became apprehensive of losses and shut off the water from the melon fields, thereby destroying fully eighty carloads and closing the season. Upon learning that the last ten cars brought striking compensation, the growers of Marian Hawks took the call for the best dancers. The guests were Elmer Harris, Silvia Abbott, Miss Symmes Johnson, Mrs. Norton, Miss Sarah and Catherine Norton, Mr. and Mrs. Morgan, W. E. Curtis and wife, Miss McDonald, Mr. Center and Mrs. Craig.

Monday afternoon Prof. Harold Symmes and Miss Symmes were at home to their friends in their cozy cottage. They had come to town to attend the annual meeting of the University of Michigan, and Elmer Harris, a player-wright, recently from Paris.

Having arrived at the Lodge are S. Wilson, and wife, W. R. Hartman, M. Hollerman, and G. J. Symmes of Los Angeles, W. T. Nolan, Redlands, Corrine Marcellus, and Esther Sandeman of Pasadena, H. A. Robinson of Hemet.

It is reported here that the season will not open in Colorado for a month yet.

HURT BY ELEVATOR.

I. D. Hale barely escaped with his life in an elevator accident on Friday evening. He was shown a party of ladies through the refrigerating plant. In ascending on the freight elevator from the basement he leaned down to assist a child to the platform, forgetful of the upper floor. His wife saw the danger and pulled him back just in time to save him from a horrible death. He was held in a death grip between the elevator floor and the first floor. With a pressure of seven tons bearing against that foot the first floor gave way, despite the sixteen-penny nail with which it had been secured. Prof. Hale was obliged to use crutches for several months as his foot is in a bad condition.

HONOR FOR RECTOR.

Upon J. L. Rector's return from Los Angeles on Thursday evening the employees of the refrigerating plant of which he is president, and the men of the melon-packing house presented him with a beautiful American flag, 12x20 feet. It was given to Mr. Rector as a token of esteem and appreciation for the development of the valley. I. D. Hale made a graceful presentation speech and T. Elliott, Wells, Fargo & Co.'s agent, stepped forward with the flag. The donors were much disappointed that the flag did not arrive in time for the Fourth. They have erected the pole on that day. The flag will fly from the refrigerator plant. It was some time before Mr. Rector could express himself. He was taken by surprise. Being a ready speaker, he finally declared himself as highly pleased.

INDIAN SEA REFRESHES.

The Salton Sea is plainly visible from Mecca and vicinity. It looks much like the ocean and when the wind comes from the direction of the Salton Breeze is as refreshing as the genuine ocean breeze on a hot day. There is not so much fear of danger from the encroaching water as has been reported.

To be sure, the waves run high on a windy day, but Salton is more than 200 feet above sea level and exceeds 100 feet higher. Considering that the Salton Sea rises only two inches per day at the most, it would require many weeks to reach Mecca.

RAILROAD GAUGES.

The Salton Sea is plainly visible from Mecca and vicinity. It looks much like the ocean and when the wind comes from the direction of the Salton Breeze is as refreshing as the genuine ocean breeze on a hot day. There is not so much fear of danger from the encroaching water as has been reported.

The most serious trouble is found in the big cut, which is not but a dry hole, while just before the quake it was pouring out a constant and phenomenal flow of crude petroleum.

For a depth of ten or more feet the well is choked with sand and rocks. The officials believe that the earth movement, which obstructed this cut, has completed the well once more to be the pride of the Olinda and Fullerton oil fields, but some oil men who work in the field, believe that the bottom has dropped out of the gusher, and in order to become a wonder again, it will have to be drilled to a great depth.

IT IS UPON THIS THAT THE THEORIST BASES SOME OF HIS CONCLUSIONS, MIXING EARTHQUAKES AND OIL.

It is upon this that the theorist bases some of his conclusions, mixing earthquakes and oil. He argues that the deep well which the Santa Fe has drilled in Olinda, some of these holding tanks, which are the pride of the world, have gradually drained out the petroleum, leaving a system of deep caverns, and the weight of the earth's crust is gradually crushing these caverns, and as tons of great slices of earth are falling, the far-shake of the earth: and that the earthquake Saturday was nothing but a landslide in one of the vast subterranean chambers, which the Santa Fe had drained of its petroleum.

SAN BERNARDINO NOTES.

The San Bernardino Gas and Electric Company has filed answer to the suit for \$200 damages instituted by H. N. Bracken, backed by the Home Gas Company, in recovering the expense of removing the gas line from the earth. The suit was filed in the Superior Court, and the defendant denied that the defendant damaged the premises occupied by Bracken in removing a certain gas service recently, and sets forth that Bracken has no suit coming, as the property is not his, but belongs to W. E. Hooper, mortgage holder, and John D. Hartley.

The findings in the suit for \$300 damages brought against P. B. Hockaday and R. R. Simpson for damages growing out of a real estate deal, were filed this morning, in which Judge Oster states that the defendant admitted his desire to cheat, and defend the plaintiff, and succeeded, knowing that they misrepresented the facts when they traded her a \$500 ranch, claiming it was worth \$200, and gave her \$200 cash for a property worth \$300.

REDLANDS.

SALT LAKE ROAD COMING.

REDLANDS, July 18.—Since a party of Salt Lake surveyors visited Redlands last week, gossip has been rife as to their business here, and information has leaked out regarding plans to run the main line from Riverside to Daggett through Redlands. At yesterday's meeting of the directors of the Board of Trade, action was taken to make Redlands a point on its main line. A special committee composed of A. G. Hubbard, C. L. Hayes, Henry Fisher, E. W. Cane, E. S. Graham, W. W. Campbell and J. J.

Prendergast was appointed to represent the board in conferring with the company.

It is reported that the Salt Lake five survey corps a road between Redlands and Barstow, three of them in the Yucca valley. The grade up through the Yucca will be a stiff one, but not insurmountable and a line through that section would open new possibilities to the Rich ranching country, and would not be wholly without profit to the road.

RIVERSIDE BREVITIES.

Mr. Mattie L. Waters has applied for a divorce from Arthur Waters.

Rex, the first horse purchased and used by the Riverside fire department, has been donated to Capt. Dexter. Capt. Dexter plans to spend the remainder of his days in operating a lawn mower and hauling rubbish.

The Knights of the Maccabees installed new officers last night under the direction of Past Commander W. A. Dyer and Frank Calkins.

PERSONAL MENTION.

Mr. and Mrs. M. M. Miller are home from their wedding trip, and are domiciled temporarily on Fairview avenue, at the home of Mrs. Miller's parents, Mr. and Mrs. Leah.

Mr. and Mrs. J. G. Morrow and guest, Miss Georgia Bowman, are spending a week at Newport Beach.

Edgar C. Price, 16, has gone to Santa Monica to remain for the summer.

J. W. Darrow and family went to Laguna yesterday for a two weeks' outing.

C. McNeil and Mr. and Mrs. L. Goepper have gone to San Juan Hot Springs to remain for a couple of weeks.

Mrs. J. D. Hartley of Safford, Tex., is a guest at the home of her daughter, Mrs. C. E. Waffle.

D. Glines and family of Phoenix, Ariz., are being entertained at the home of Mr. and Mrs. V. V. V. V.

Mrs. E. E. Keeler and children have gone to Skylane to spend the summer.

Superintendent of Schools J. C. Templeton and family will spend the summer in the San Bernardino Mountains, leaving next week for the trip.

Mrs. E. E. Keeler and children have gone to Skylane to spend the summer.

Miss Clara Ball is visiting with friends in San Diego.

ORGANIZATIONS.

COACHELLA CANTALOUPES ARE  
EIGHTY CARS SHORT.

Grovers Became Apprehensive of Losses and Shut Off Water from Their Fields—When Reports of the High Prices Came They Irrigated Again, but Too Late.

COACHELLA, July 18.—The cantaloupe crop is practically at an end. The last carloads go out today. The total number of cars from the valley, up to Saturday, was 340 for the season—424 from Coachella and 66 from Thermal. Of these 22 cars were sent by express, 48 by expedited freight and 152 by regular freight.

The contract was let to L. C. Waldman today for a two-room addition to the Longfellow schoolhouse on East Seventh. The contract price was \$384.

The great flueg horn soloist, Frans Helle, from "Sousa's Band," at Coronado.

## NEW BOARD TO CATCH GRAFTS.

Too Many "Charities" Here by a Jugfull.

Mayor, Council and M. & M. Create Committee.

Books of Money-askers are to be Exploited.

It may make some people gasp to know that there are more than 200 almsgiving institutions in Los Angeles city.

Such is the fact, church philanthropies and fraternal benevolences being included in the grand total. One result is that a great deal more money is contributed, in one form or another, by the whole public, and far less good accomplished, than would be if a central body were to exercise an advisory supervision over all charities and give to the administration of public benevolence the same care and acumen that commonly enter into the conduct of other public affairs.

To this end Dr. W. A. Lamb as a personal representative of Mayor McAleer, and F. J. Zeehandel, as secretary of the Merchants' and Manufacturers' Association, appeared before the City Council, after personal discussions with the members, and presented briefly an outline of a plan for inspecting all public and allegedly public charities in the city and henceforth exercising some advisory supervision over the same, inasmuch as toward their maintenance the Council annually pays about \$10,000 and the citizens individually many times that amount.

In line with suggestions made, the Council appointed two of its members, Councilmen Smith and Kern and the Merchants' and Manufacturers' Association, to form a committee, and we of its members, C. H. Plumb, C. A. R. W. Pridham, and the Mayor appointed Dr. W. A. Lamb, these six gentlemen to form for the present a "Charities' Endorsement Committee."

At the request of the members, the Council voted to appropriate money with which to employ an expert accountant to investigate the books of all institutions applying to either the Council or the citizens for financial contributions. The expert's plan is to form to a certain extent a working basis upon which the Endorsement Committee can determine what institutions are worthy of continued support and what, not. Of course, there is no thought of attempting the investigation of any institution without consent, and of course the refusal of that consent would place the institution under strong suspicion and cause the committee to withhold induction.

Printed reports made by one of the very numerous local societies and organizations having for their ostensible purpose the relief of the indigent, helpless, unfortunate and suffering, show that in the way from 50 to 75 per cent of the money yearly received is spent in the payment of salaries to officers, a good many of whom, it is suspected, are superfluous. Thus in many instances only a comparatively small portion of the money

There are seventy-five million people in this country. THE LADIES' HOME JOURNAL is read by five million of them.

There are thirteen million homes in this country. THE LADIES' HOME JOURNAL goes into one million of them.

The homes which are reached by THE LADIES' HOME JOURNAL are selected by a process of elimination measured by the standards of THE LADIES' HOME JOURNAL. Its readers are bound to be women who have homes to buy for, tastes to appreciate good things, money to pay a fair price, and who, as they look upon THE LADIES' HOME JOURNAL as an authority in all matters pertaining to the conduct, furnishing and decorating of a home, so do they look upon the announcements of advertisers in its columns with the same faith. This faith we have carefully cultivated to the extent of making good to subscribers any loss which may come through an advertisement which by any oversight might be admitted to its columns.

Such a method of selection would give you not any five million, but the best five million, out of seventy-five million.

THE CURTIS PUBLISHING COMPANY PHILADELPHIA BOSTON CHICAGO

greatly increases the amount of money to be applied, and at the same time insures the material necessary to be contributed. In Los Angeles there is considerable lapsing in the charities field, in some cases several societies attempting to do a work that one could more simply and effectively perform. It seems to us that a central authority or organization of admission, representing within itself the real powers of the City Council and the endorsement powers of the Merchants' and Manufacturers' Association, and having an agreed advisory supervision

The charity-endorsement card used in San Francisco, without which it is practically impossible to approach the public for charity contributions. The same system may be adopted by the new Los Angeles committee.

subscribed by benevolent people is applied to the use for which it was solicited, if at all.

Among those who have investigated, it is notorious that Los Angeles and Los Angeles people support annually a number of so-called charitable institutions far in excess of local requirements. Some of the "special fields of kindly endeavor" into which the benevolent people have put their gift money, are represented by three or half a dozen societies or institutions with nearly identical aims, which are paying good salaries to a dozen or more officers, when a combining of them into one institution would do away with the unnecessary expense account and greatly simplify and facilitate the actual work of relief.

Every little while the Merchants' and Manufacturers' Association is impounded for an endorsement by some new society or organization which whose prime object is to collect money and whose alleged aim is to save sinners, or assist housemaids, or find homes for waifs, or establish a refuge for department store girls out of a job, or teach the gentle rudiments of Christianity to the unfortunate offsprings of indolent and indigent Slaves. In some of these cases the fraudulent intent of the importunities is so palpable that the law against obtaining money by false pretense is boldly violated in practice. In other cases, applicants for M. & M. endorsement is such a common to put up a pretty logical front; again, the "cause" is honest, but impractical, or sincere, but unnecessary, or well-meant, but visibly absurd.

The accompanying cut shows the method of operation used in San Francisco, where a committee of charities' endorsement sifts the claims of all persons and organizations proposing to solicit money from the public, and determines which of them are worthy of confidence. Such as are able to withstand the keen scrutiny of the investigating committee are given cards identical with that here shown, and they are then entitled to public consideration. Those that are deemed unworthy of endorsement are presented to the city by municipal law made to cover the offense of begging. It is likely that the newly-formed local committee will adopt the same system and card for Los Angeles.

Investigation shows that there is a great waste in the administration of benevolences in Los Angeles. We believe, and it has been demonstrated in other States and cities, that a combination of too numerous institutions having much the same objects and

# Hamburger's-Daily Bulletin

SAFEST PLACE TO TRADE

127 to 147 N. SPRING ST. L.A.

## HALF YEARLY CLEANUP SALE

Continuation of the greatest half yearly merchandise event in the twenty-three years of our mercantile experience. Every line of spring and summer wear is marked for a general clearance at prices averaging one-half regular but in many cases prices are less than the cost of manufacturing. As there are months to get full uses of summer merchandise, it will pay you to anticipate all your wants and the saving you will affect will come in very nicely to spend your summer vacation trip.

### Free "Victor" Musical Recital

2:00 to 4:30 DAILY

The Improved Victor is the finest grade of this world-famed make, and we have made special arrangements to have a large stock of these in our Palm Garden, on the fourth floor, where you will find more than 100 different makes and designs of records and records, where you will be served free with Newark's pure tea, together with wa-

We have the largest stock of "Victor" machines, records and all appendages in the city. All records are on sale during the concert, and will after the recital

be sold at \$1.00 each.

12-inch "Victor" records \$1.50 each or \$18.00 dozen.
